Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 31 December 2001.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 5 and 8-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Millspaugh '941.

Millspaugh '941 shows a mount and distributor assembly for coupling to a shower pipe, comprising a mount E providing a first configuration and a second configuration, see lines 69-80; distributor D; and a nozzle D2.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1, 2, 5, 7-10, 14-16 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Knowles in view of Millspaugh '941.

Knowles shows a distributor assembly comprising a mount 46; nozzle 58/59; and a distributor/lip 59, except for the mount/distributor/lip providing a first configuration and a

second configuration. Millspaugh '941, as discussed above, shows a mount E/distributor providing a first configuration and a second configuration, see lines 69-80. It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the mount/distributor/lip of Knowles to provide a first configuration and a second configuration, as taught by Millspaugh '941, since with such a modification would allow each of the distributors to adjusted to provide a continuous sheet of spray and would allow for the angle of sheet spray to be adjustable.

As to claim 14, it would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the different materials for pipe, mount and distributor, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. In re Leshin, 125 USPQ 416.

Allowable Subject Matter

5. Claims 3, 4, 6, 11-13 and 17-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lawlor et al shows a shower pipe assembly with an adjustable distributor. Schaible and Pohle show adjustable distributors.
